

Our eTicketing Platform helps operators of Attractions increase sales and lower internal costs.

eTicketing

Convergence.net is a premier provider and technology leader in the rapidly expanding market of online ticketing and registration services. Our eTicketing Platform is perfect for attractions or events. Whether you are with a theme park, zoo, aquarium, museum, waterpark or arena, Convergence.net offers a complete online solution for your marketing, ticketing, and group sales needs.

Our eTicketing platform can help you drastically increase online ticket sales while cutting operational and marketing costs. Our eTicketing Platform can handle all your ticketing requirements with sales engines for the following:

- general admission
- special events
- party reservations
- memberships
- timed tickets
- class registrations
- season pass
- gift certificates
- school registrations

Our promo code engine supports zipcode-targeted promotions, member-restricted promotions and direct mail tracking codes. We post to your merchant account for better cash flow, you own the customer data, and we can integrate with your current barcode and scanning scheme. For attractions without gate scanning system, Convergence.net offers barcode scanning from any client-supplied internet-connected PC.

In addition, our new eConsignment module brings unparalleled convenience and cost reduction to online ticket consignment. Use the web to manage the entire affiliate sign-up process, assign unique ticket prices per affiliate, and provide dual-branded ticket stores for each affiliate. Enroll and manage hundreds of groups and grow your consignment sales.

eTicketing Platform Benefits:

Easy

Hosted solution with web-based control panel for reporting and creating tickets, promotions, and store messaging

Affordable

Easily pays for itself with reduced selling, marketing, operational, administrative, and IT costs

Powerful

Increase revenues with best-in-class promotional capabilities and broadest range of products

Scalable
